Sunstone Managing Director, Patrick Duffy, said:

"We are pleased to offer our shareholders to participate in the SPP and SPP Options Offer on the same terms as the recently completed placement offered to institutional, professional and sophisticated investors.

"The SPP gives Sunstone shareholders an attractive opportunity to increase their exposure to the substantial upside offered by the Company's strategy to grow the resources at its projects and unlock their full value through partnerships.

"We believe we are on the cusp of a new chapter of growth underpinned by three significant discoveries with immense growth potential and strong appeal to major players seeking hard-to-find exposure to such major mineralised systems".
